- (1) The horses described in the certificate have been in said region during the 60 days preceding exportation;
- (2) That each horse has been inspected on the premises of origin and found free of evidence of communicable disease and, insofar as can be determined, exposure thereto during the 60 days preceding exportation;
- (3) That each horse has not been vaccinated with a live or attenuated or inactivated vaccine during the 14 days preceding exportation: Provided, however, that in specific cases the Administrator may authorize horses that have been vaccinated with an inactivated vaccine to enter the United States when he or she determines that in such cases and under such conditions as he or she may prescribe such importation will not endanger the livestock in the United States, and such horses comply with all other applicable requirements of this part;
- (4) That, insofar as can be determined, no case of African horse sickness, dourine, glanders, surra, epizootic lymphangitis, ulcerative lymphangitis, equine piroplasmosis, Venezuelan equine encephalomyelitis, vesicular stomatitis, or equine infectious anemia has occurred on the premises of origin or on adjoining premises during the 60 days preceding exportation; and
- (5) That, except as provided in §93.301(g):
- (i) The horses have not been in any region listed in §93.301(c)(1) as affected with CEM during the 12 months immediately prior to their importation into the United States;
- (ii) The horses have not been on any premises at any time during which time such premises were found by an official of the veterinary services of the national government of the region where such premises are located, to be affected with CEM;
- (iii) The horses have not been bred by or bred to any horses from an affected premises; and
- (iv) The horses have had no other contact with horses that have been found to be affected with CEM or with horses that were imported from regions affected with CEM.
- (b) If a horse is presented for importation from a region where it has been for less than 60 days, the horse must be

- accompanied by a certificate that meets the requirements of paragraph (a) of this section that has been issued by a salaried veterinary officer of the national government of each region in which the horse has been during the 60 days immediately preceding its shipment to the United States. The dates during which the horse was in each region during the 60 days immediately preceding its exportation to the United States shall be included as a part of the certification.
- (c) Following the port-of-entry inspection required by §93.306 of this part, and before a horse offered for importation from any part of the world is released from the port of entry, an inspector may require the horse and its accompanying equipment to be disinfected as a precautionary measure against the introduction of foot-and-mouth disease or any other disease dangerous to the livestock of the United States.

§ 93.315 Import permit and declaration for horses.

For all horses offered for importation from Canada, the importer or his or her agent shall present two copies of a declaration as provided in §93.305.

 $[55~{\rm FR}~31495,~{\rm Aug.}~2,~1990.~{\rm Redesignated}$ and amended at 62 FR 56012, 56017, Oct. 28, 1997]

§ 93.316 Horses from Canada for immediate slaughter.

Horses imported from Canada for immediate slaughter shall be consigned from the port of entry directly to a recognized slaughtering establishment and there be slaughtered within two weeks from the date of entry. Such horses shall be inspected at the port of entry and otherwise handled in accordance with §93.306. As used in this section, "directly" means without unloading en route if moved in a means of

¹⁶Importations from Canada shall be subject to §§93.315, 93.316, 93.317 and 93.318, in addition to other sections in this part which are in terms applicable to such importations.
